

COVID 19 – NURSERY RISK ASSESSMENT

REMEMBER!!!

Hierarchy of measures set out in government [guidance](#):

- avoid contact with anyone with symptoms
- frequent hand cleaning and good hygiene practices
 - regular cleaning of settings
 - and minimising contact and mixing

Activity:	Childcare during Coronavirus (Covid-19) Pandemic	Hub Nursery:	ATHERTON/STREATHAM - <u>HOMELAND</u> /RICHMOND		
Assessor:	AA/LR	Ref No.:		Distribution:	
Date:	28.08.2020	Proposed Review Date:	ongoing	Signed:	

Hazard	Risk	Individuals at risk	Risk Rating	Control Measures What are we doing now?	Notes/Additional Control Measures What more do we need to	Residual Risk
Staffing & spread of Covid-19 virus to staff, young people and families	Serious respiratory illness, death	All building users including staff, young people, catering, cleaning & site staff	High	<input type="checkbox"/> Implement all advice and communicate to staff. Currently any person developing a new continual cough or a high temperature (37.8°C) whilst at work must be sent home and advice re self-isolating offered https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection . <input type="checkbox"/> <u>ADDITIONAL - lack of a sense of smell has now been added to the list of symptoms</u> <input type="checkbox"/> Staff showing signs of Covid 19 will be asked by seniors to complete a <u>COVID test before returning to work</u> <ul style="list-style-type: none"> • <i>The government is developing a new national test and trace programme. This will bring together an app, expanded web and phone-based contact tracing, and swab testing for those with potential coronavirus symptoms. This programme will play an important role in helping to minimise the spread of coronavirus in the future. It will also include more traditional methods of contact tracing if a child, young person or parent tests positive.</i> <input type="checkbox"/> Maintain a bank of staff ready to bring in should staff on rota be unable to work.	Ensure it is appropriately sanitised after each use or use disposable caps. Check staff daily for symptoms – as staff sign in they are self-declaring fitness Ensure staff lists are maintained with <u>manager</u> - Up-date rota as required. Ensure staff understand this is part of their duty of care	Medium

Hazard	Risk	Individuals at risk	Risk Rating	Control Measures What are we doing now?	Notes/Additional Control Measures What more do we need to	Residual Risk
				<input type="checkbox"/> Maintain communication with staff to ensure that bank is current. <input type="checkbox"/> Staff have been asked to declare any underlying medical conditions and/ or pregnancy. Those in a high-risk group (as defined by the PHE advice) are advised to seek advice from NHS 111 or GP practice. 'Guidance on social distancing for everyone in the UK and protecting older people and vulnerable adults' . <input type="checkbox"/> Staff who live alone and have symptoms of coronavirus illness (COVID-19), however mild, stay at home for 10 days from when their symptoms started. <input type="checkbox"/> Where staff are living with others and they are the first in the household to have symptoms of coronavirus, then they must stay at home for 10 days, but all other household members who remain well must stay at home and not leave the house for 14 days . The 14-day period starts from the day when the first person in the house became ill <input type="checkbox"/> For anyone else in the household who starts displaying symptoms, they need to stay at home for 10 days from when the symptoms appeared, regardless of what day they are on in the original 14-day isolation period		
Young people & spread of Covid-19 virus to staff, young people and families	Infection spread leading to serious respiratory illness, death	All building users including staff, young people, catering, cleaning & site staff	High	<input type="checkbox"/> Children attending the nursery who exhibit signs of a new continuous cough or a high temperature (37.8°C) will be assessed by staff and parents asked to collect them. <input type="checkbox"/> <u>ADDITIONAL - lack of a sense of smell has now been added to the list of symptoms</u> <input type="checkbox"/> Parents will be advised to follow current government guidance. If a young person presents to a member of staff, their temperature will be checked by a senior staff member and if child's displays temp they will wait in the isolation room with senior. <input type="checkbox"/> Nursery will maintain current contact details for all children in attendance including a secondary contact. <input type="checkbox"/> All staff to be aware of where to locate the list. <input type="checkbox"/> If a child needs to be sent home after exhibiting symptoms, they will be separated safely from the main group and allowed to use identified toilet. The toilet will not be used by others. <input type="checkbox"/> Such individuals will be monitored by a member of staff. <input type="checkbox"/> After use, the toilet will be cleaned by cleaning or site staff using normal proprietary cleaning products. <input type="checkbox"/> Any siblings living in the same household will also be sent home.	<p>In-ear thermometer – as above.</p> <p>Identify quarantine room for children and identify toilet arrangements (use downstairs toilets)</p> <p>Ensure all PPE is ready to hand in isolation room</p>	Medium

Hazard	Risk	Individuals at risk	Risk Rating	Control Measures What are we doing now?	Notes/Additional Control Measures What more do we need to	Residual Risk
Inadequate cleaning & spread of Covid-19 virus to staff, young people and families	Infection spread leading to serious respiratory illness, death	All building users including staff, young people, catering, cleaning & site staff	High	<input type="checkbox"/> Cleaning with usual cleaning products will continue, with at least 4 times daily cleaning of highly used areas – door handles, bannisters, taps. <input type="checkbox"/> Frequently touched hard surfaces should be cleaned. <input type="checkbox"/> Telephones, keyboards, light switches, electronic entry systems etc., should be cleaned with anti-viral wipes. <input type="checkbox"/> Ensure that electronic systems, keypads and internal room phones are regularly sanitised particularly first thing in the morning and where possible after each use. <input type="checkbox"/> All bins will be lined and the liner removed at the end of the day, sealed/knotted and placed in the main waste container at the end of the day. <input type="checkbox"/> Regularly check stocks of cleaning chemicals, liquid soap, paper towels, tissues, toilet roll, bin bags etc. and request additional supplies as necessary. <input type="checkbox"/> Ensure disposable tissues are available in each room for both staff and children.	<p>Carry out inventory check of cleaning products and stock at regular intervals, restocking as necessary.</p> <p>Notify LA of any short-comings and ensure Hub is a priority for resources</p>	
Inadequate hand washing & spread of Covid-19 virus to staff, young people and families	Infection spread leading to serious respiratory illness, death	All building users including staff, young people, catering, cleaning & site staff	High	<input type="checkbox"/> Staff/children/cleaners/contractors etc. will be reminded to wash their hands before leaving home, on arrival at the premises and before and after handling cleaning chemicals, eating/drinking, using the toilet, after physical activities and after coughing or sneezing and not to touch face (eyes, mouth, nose) with hands that are not clean. <input type="checkbox"/> Wash with liquid soap & water for a minimum of 20 seconds (see hand wash guidance). <input type="checkbox"/> Alcohol based hand cleansers/gels (containing at least 60% alcohol) can be used if soap and water are not available, but is not a substitute for hand washing. <input type="checkbox"/> Consideration should be given to allocating individual toilets and sinks to children where numbers are low and this is achievable, sinks and toilets will be regularly sanitised throughout the day. <input type="checkbox"/> Hands must be dried properly to prevent infection and drying out. Pat dry rather than rub to avoid discomfort. Supplies of hand cream (aqueous cream or similar) should be made available to help prevent soreness. <input type="checkbox"/> Additional hand sanitiser units to be installed in the nursery where possible and at the main entrance Atherton house.	<p>Poster around the setting as appropriate.</p> <p>Ensure all sinks have necessary stock & restock as necessary.</p> <p>Ensure all attending understand how to wash hands correctly</p> <p>Sanitise sinks daily</p> <p>Allocate sinks to individual children and staff (repeat sinks).</p>	Medium
Inadequate personal protection & PPE & spread of Covid-19 virus to	Infection spread leading to serious respiratory illness, death	All building users including staff, young people,	High	<input type="checkbox"/> In order to minimise the risk to colleagues from used Personal Protective Equipment (PPE), it is essential that it is removed in a safe manner. To begin with, remove the apron. If you have worn gloves, remove them next by turning them inside out in one single motion. <input type="checkbox"/> Disposable items should be placed in the bin immediately.	<p>Ensure adequate bins and tissues are made available.</p> <p>Ensure nursery has a stock of rubber gloves and if needed, disposable gloves.</p>	Medium

Hazard	Risk	Individuals at risk	Risk Rating	Control Measures What are we doing now?	Notes/Additional Control Measures What more do we need to	Residual Risk
staff, young people and families		catering, cleaning & site staff		<input type="checkbox"/> Rubber gloves should be washed and dried properly before reuse. <input type="checkbox"/> Sneeze into a tissue or sleeve NEVER into hands. Wash hands immediately after (as above). <input type="checkbox"/> Used tissues will be put in a bin immediately (as above – all waste bins to be lined – preferably double-lined).	<p>Ensure all staff and children know the procedures to follow.</p> <p>Signage as appropriate.</p>	
Inappropriate social distancing measures not followed & spread of Covid-19 virus to staff, young people and families	Infection spread leading to serious respiratory illness, death	All building users including staff, young people, catering, cleaning & site staff	High	<input type="checkbox"/> All to observe social distancing in line with government guidance as much as possible https://www.gov.uk/government/publications/coronavirus-covid-19-implementing-social-distancing-in-education-and-childcare-settings . <input type="checkbox"/> <input type="checkbox"/> Minimise, or remove all together, soft toys and other more difficult to keep clean equipment. <input type="checkbox"/> Other equipment can be sanitised throughout the day and at the end of the day, but keep to a minimum. Milton is brilliant and goes a long way. <input type="checkbox"/> Staff will be briefed regularly, at least in line with changes to government guidance.	<p>Daily sanitising as appropriate.</p> <p>Daily briefings to staff as necessary, particularly as there may be different staff covering.</p>	Medium
Practical food activities & spread of Covid-19 virus to staff, young people and families	Infection spread leading to serious respiratory illness, death	All building users including staff, young people, catering, cleaning & site staff	High	<input type="checkbox"/> Practical food activities with children should not take place. <input type="checkbox"/> Catering – all food will be served either hot on a clean plate or packaged. <input type="checkbox"/> Young people will be encouraged to sanitise their hands before choosing their food. <input type="checkbox"/> Kitchen waste to be disposed of as usual. <input type="checkbox"/> Manager asked to ensure there is at least a full days' additional supply of milk and basics.	<p>Ensure all children new to premises understand how to dispose of food.</p> <p>Liaise with catering staff to ensure additional supplies.</p>	Low
Visitors & spread of Covid-19 virus to staff, young people and families	Infection spread leading to serious respiratory illness, death	All building users including staff, young people, catering, cleaning & site staff and visitors	High	<input type="checkbox"/> Visitors to the premises will be discouraged and all non-essential visitors will be cancelled or postponed. <input type="checkbox"/> Parents will be asked to drop off at an allocated entrance and not enter premises.	<p>Ensure parents know drop off and pick up routines.</p>	Low
Fire and intruder alarms and emergencies	Inability to operate emergency systems or procedures	All building users including staff, young people,	High	<input type="checkbox"/> All staff to undergo induction in the fire and emergency routines and accident/first aid procedures. This may not be the usual routes. Repeat as necessary with new starters (staff). <input type="checkbox"/> Ensure the site is safe – including the operation of intruder and fire alarms.	<p>Hold a fire and 'invacuation' (lockdown) drill at earliest convenience.</p> <p>Brief staff and children on First Aid procedures of the school.</p>	Low

Hazard	Risk	Individuals at risk	Risk Rating	Control Measures What are we doing now?	Notes/Additional Control Measures What more do we need to	Residual Risk
		catering, cleaning & site staff and visitors		<input type="checkbox"/> Staff must be aware of the operation of the security and fire alarm system and what to do in an emergency situation including how to call emergency services (ensure staff aware if there is a prefix to obtain an outside line from the hub landline(s)). <input type="checkbox"/> Ensure that emergency cut-off points for water, gas and electric are clearly marked and known by the senior designated member of staff and that details of emergency contacts for utilities are readily available. <input type="checkbox"/> If necessary, change the criteria for call out to ensure the emergency services are alerted immediately, should the alarms trigger during silent hours (this may be a change from current practice, where the police are currently summoned if necessary, by a keyholding service for the intruder alarm for example).	<p>Brief rota staff on operation of fire and intruder alarms.</p> <p>Make available the codes on and off site and ensure all know how to access should it be required.</p> <p>Ensure key staff know gas, water and electric cut-off points and how to operate them.</p>	
Holding internal Fire Doors open	Rapid fire and smoke spread	All building users including staff, young people, catering, cleaning & site staff and visitors	High	<input type="checkbox"/> Propping fire doors open by any other means other than proprietary hold open devices triggered by the fire alarm is normally not permitted. However , all reasonable methods of preventing infection spread will need to be introduced. The risk of a fire starting is probably lower than the risk of infection spread. <input type="checkbox"/> If fire doors are held open, alter your documented and practical procedures to ensure that more staff are appointed to ensure ALL fire doors are closed if the fire alarm sounds or fire is discovered. <input type="checkbox"/> Ensure fire doors to rooms not being used are closed. <input type="checkbox"/> Use wedges to hold open doors – these can be easily kicked out should there be an emergency situation. Only hold doors open where access through them is required during the day and where the room beyond is occupied. This will reduce the risk of contamination. <input type="checkbox"/> At the end of each day, ALL fire doors must be closed. Wipe down contact points with a proprietary cleaning product ready for the next day. <input type="checkbox"/> Fire exits should not be secured with devices requiring a key to unlock them. There is a conflict between fire and security in schools. It is acceptable to secure exit doors with very simple cabin hooks or sliding bolts as the risk of a child escaping is far greater than the risk of a fire starting. Children are never left unsupervised so there is always an adult available to unhook bolts/hooks and worse-case scenario, a child could easily use a chair to reach the hook/bolt.	<p>Review fire doors appropriate to setting.</p> <p>Train staff in the correct procedures in the event of fire emergency – repeat as necessary – monitor via fire drills</p>	Low
Lack of leadership and management	First aid and safeguarding issues being	Staff and young people	High	<input type="checkbox"/> Designate a 'Senior Leader' for each day the setting is open – this may well change day by day, but all other supporting staff need to know who will take charge in the event of an emergency.	Design and share rota with clear leader identified for each day.	Low

Hazard	Risk	Individuals at risk	Risk Rating	Control Measures What are we doing now?	Notes/Additional Control Measures What more do we need to	Residual Risk
	missed/ unaddressed			<input type="checkbox"/> The rota for staff should include at least one member of staff with a first aid certificate (paediatric if the users are early years). Ensure first aid boxes are appropriately stocked. <input type="checkbox"/> Designated Safeguarding Lead or Deputy DSL does not need to be on site at all times, but MUST be contactable by phone throughout the session period. A rota may be used for this purpose. <input type="checkbox"/> Key telephone numbers of all available DSL's/deputies to be provided to staff covering the setting. <input type="checkbox"/> Ensure the contact details of the Safeguarding Hub/Early Help Team/LADO are available to all staff on duty. Posters can be downloaded from the KAHSC website https://www.kymallanhsc.co.uk/Document/DownloadDocument/9547 <input type="checkbox"/> Ensure that Child Protection information is known by the 'senior designated leader' for all those who are attending from alternative schools. <input type="checkbox"/> Information must be held securely. <input type="checkbox"/> Access to such confidential information may need to be given to the senior designated member of staff (in the absence of the nominated DSL/deputy) where normally access would be restricted to the DSL/deputy. Confidentiality of records must be maintained at all times.	<p>Include DSL / DDSL and First Aiders</p> <p>Make contact details available to all staff for DSL</p> <p>Display Safeguarding information/poster for all staff and ensure all staff attending know the DSL for the day.</p>	
Inadequate procedures for managing medical needs	Medical needs of young people not being met	Young people particularly and staff	High	<input type="checkbox"/> Ensure staff are aware of any medical issues affecting individual attendees including staff. <input type="checkbox"/> Senior staff will administer medication to children. <input type="checkbox"/> They will need training in specialist administration e.g. adrenaline auto-injector, insulin pump, epilepsy medication etc., but other than that, no specialist qualification is required providing they follow the instructions on the packaging/from the dispenser. <input type="checkbox"/> Inhalers – check the date of the inhaler; that it is not empty and that it is prescribed for the child in question. Allow them to self-administer if appropriate. <input type="checkbox"/> Record the time and date the inhaler was used/medication was administered. Ensure safe storage and, for children who do not normally attend the setting, return to the parent at the end of each day. <input type="checkbox"/> Emergency pain-relief: <ul style="list-style-type: none"> - Parents will have signed to say they consent to their child being given emergency pain relief; this will have been included in our registration documentation. 	<p>Have medicine sheets ready for parents to sign and share details with staff.</p> <p>Ensure all medical needs are clearly identified with focus on children not from our setting.</p> <p>Ensure all medicines are stored in accordance with current policies of the school, in a fridge if needed.</p> <p>Emergency medication must not be locked away – it must be readily accessible for use in an emergency.</p>	

Hazard	Risk	Individuals at risk	Risk Rating	Control Measures What are we doing now?	Notes/Additional Control Measures What more do we need to	Residual Risk
				<ul style="list-style-type: none"> - Do not administer until after 12.00 p.m. unless you are sure that a child has not been given pain relief in the preceding 4 hours. - Check the date on the medication. - Ensure the spoon or syringe is clean and sanitised. - Only administer the minimum recommended dose. - Clean and sanitise the spoon/syringe after use. - Record the time and date of the administration along with the name of the child and date of birth. Use existing record sheets for this purpose. <input type="checkbox"/> Inform parents at the end of the session of what medication or pain relief has been administered, the time it was given and the dose.		
Safeguarding issues	Checking suitability/unsuitability of staff working with children -	Children	High	<input type="checkbox"/> Staff must abide by the nursery's Safe-Guarding /Child Protection Policy – and linked policies. <input type="checkbox"/> All staff have DBS Certificates <input type="checkbox"/> Should a member of staff be employed by another of our Group nurseries – they will provide DBS details. <input type="checkbox"/> Ensure that there is no taking or using of images, without parental consent <input type="checkbox"/> Safe-Guarding concern meetings will permit parents on site – socially distanced – and following 'visitor on site' procedures. <input type="checkbox"/> Such meetings will be witnessed – DSL and Deputy DSL/senior on site	<p>Maintain staffing rotas and ratios</p> <p>Refresh staff training on safe-guarding/child protection – link to May 2020 training</p> <p>Maintain reinforcement of professional standards - refresh training on expected behaviour</p>	Low
Child or member of staff becomes seriously ill at NURSERY (unrelated to current pandemic)	Death or serious medical emergency	Children and staff	Med	<input type="checkbox"/> Follow NHS guidelines. <input type="checkbox"/> Call 999 if necessary. <input type="checkbox"/> Isolate the ill person in a First Aid room - closely monitor if a child – do not leave alone – they will be with a senior staff member – send all other occupants out of the phase group room to 'stand by' room to a place of safety. <input type="checkbox"/> Implement first aid as necessary. <input type="checkbox"/> Maintain medical hygiene procedures throughout – wear gloves if needed and wash hands thoroughly and frequently and after the patient has left in the care of the paramedics.		Low
Anxious children	Emotional impact of lockdown on the children – now and in to the	children	MED	<input type="checkbox"/> Staff will support emotional needs of the children – social distancing is not possible with the younger age group. <input type="checkbox"/> Staff will work with families – following any information shared as to the child has reacted to lockdown at home – return to setting health questionnaire	Refresh staff training on supporting emotional well-being of children	

Hazard	Risk	Individuals at risk	Risk Rating	Control Measures What are we doing now?	Notes/Additional Control Measures What more do we need to	Residual Risk		
	future – impact on development			<input type="checkbox"/> Face masks, unless a child has been isolated on site awaiting collection, should not be worn by staff – for could lead to stressing children <input type="checkbox"/>				
Vulnerable children (link to safeguarding above)	Children being ‘victims’ while at home due to lockdown	children	HIGH	<input type="checkbox"/> Staff will follow Safe-Guarding/Child Protection guidance. <input type="checkbox"/> There will be a Designated Lead for Safe-Guarding and a Deputy on site (or contactable in line with guidance) <input type="checkbox"/> Staff will work with the Local Authority Safe-Guarding Team (TSSB) and First Response Social Services Team to support vulnerable children. <input type="checkbox"/> Staff will have refresher Safe-Guarding training <input type="checkbox"/> Safe-Guarding concern meetings will permit parents on site – socially distanced – and following ‘visitor on site’ procedures. <input type="checkbox"/> Such meetings will be witnessed – DSL and Deputy DSL/senior on site	Refresh staff training on safe-guarding matters – linked to return – May 2020 Maintain reinforcement of professional standards - refresh training on expected behaviour			
Supporting staff well-being	Mental health deterioration of staff	Staff team	MED	<input type="checkbox"/> Transparent communication with staff – in work and still on furlough/shielding <input type="checkbox"/> Health questionnaire - from 1 st June training sessions <input type="checkbox"/> 1:1 supervisions maintaining <input type="checkbox"/> Rebuilding team – focus of seniors and directors	Need to maintain communication with those staff still as home for prolonged period			
Further Action Required					Date Action Completed	Date RA Reviewed	Significant Changes Y/N	Shared with Staff Date or N/A
This risk assessment must be read and followed in conjunction with other applicable risk assessments for the setting or for the Young Person.					28/8/20
